Accessibility conformance report: What To Do In An Emergency: food safety guidance for food service operators (Lane County Public Health, August 2018)

Prepared 2026-11-12. Source file: lane-food-emergency-prep.pdf (1 pages). Remediated file: lane-food-emergency-prep.pdf.

Summary

Before and after remediation

Check	Before	After
PDF/UA-1 machine validation (veraPDF, ISO 14289-1)	Fails: 9 rules, 309 failed checks	Passes
Tagged structure	No	Yes
Document language	Not set	en-US
Document title shown in title bar	Microsoft Word - What To Do In An Emergency 2018 8X11.docx	What To Do In An Emergency: food safety guidance for food service operators (Lane County Public Health, August 2018)
Bookmarks	0	0
Images with alternative text		2 of 2 tagged figures
Form fields with labels		No form fields
Text recognised from scanned images (OCR)		Not needed
Visual change (share of pixels that differ, worst page)		0.0298

Visual change is measured by rendering every page before and after and counting pixels that differ. A value near zero means the document looks the same to a sighted reader. Small non-zero values come from embedding the fonts the original only named.

What we promise, and what we do not

- The remediated file passes PDF/UA-1 machine validation in veraPDF, the reference open-source validator, unless this report says otherwise.
- The structure (headings, lists, tables, reading order) was reviewed against the page, and every image and form field was reviewed and described or labelled.
- This is not a certification and not a legal opinion. Machine validation cannot judge whether alternative text or reading order is right; that part rests on the review described below.
- Colour contrast is measured and reported, not changed.

Structure of the remediated document

Tagged elements by type

Element	Count
Figure	2

H1	1
H2	4
L	4
LBody	9
LI	9
P	2

Headings, in reading order

- Level 1: What To Do In An Emergency
- Level 2: Power Outage
- Level 2: Sewage Backup or Flood
- Level 2: Contaminated Water Supply or No Water
- Level 2: No Hot Water

Machine validation in detail

Failures in the original file

Rule (ISO 14289-1 clause)	What it checks	Failed checks
5-1	The PDF/UA version and conformance level of a file shall be specified using the PDF/UA Identification extension schema	1
6.2-1	The document catalog dictionary shall include a MarkInfo dictionary containing an entry, Marked, whose value shall be true	1
7.1-10	The document catalog dictionary shall include a ViewerPreferences dictionary containing a DisplayDocTitle key, whose value shall be true	1
7.1-11	The logical structure of the conforming file shall be described by a structure hierarchy rooted in the StructTreeRoot entry of the document	1
7.1-3	Content shall be marked as Artifact or tagged as real content	216
7.2-33	Natural language for document metadata shall be determined	1
7.2-34	Natural language for text in page content shall be determined	83
7.21.4.1-1	The font programs for all fonts used for rendering within a conforming file shall be embedded within that file, as defined in ISO 32000-1:20	3
7.21.4.2-2	If the FontDescriptor dictionary of an embedded CID font contains a CIDSet stream, then it shall identify all CIDs which are present in the	2

No PDF/UA-1 failures remain in the remediated file.

Colour contrast (WCAG 2.1, success criterion 1.4.3)

7 text runs measure below the required ratio (4.5 to 1, or 3 to 1 for large text), and 0 sit on a busy background (a photo) and cannot be measured automatically, so check them by eye. These are reported,

not changed.

Contrast findings

Page	Text	Ratio	Required	Finding
1	What To Do In An Emergency	4.0	4.5	fail
1	Power Outage	4.0	4.5	fail
1	Sewage Backup or Flood	4.0	4.5	fail
1	Contaminated Water Supply or No Water	4.0	4.5	fail
1	No Hot Water	4.0	4.5	fail
1	In all emergencies, contact Environmental Health as soon as	4.0	4.5	fail
1	After Hours: (541) 682-4041	4.0	4.5	fail

Checks that machine validation cannot settle (Matterhorn Protocol)

Review checks

Checkpoint	Status	How
01 Real content tagged, decoration marked as artifact	Reviewed against the page	Tag tree compared with the rendered pages.
06/09 Logical reading order and appropriate tags	Reviewed against the page	Reading order and tag types checked in the tag dump against the page images.
13 Alternative text for figures is meaningful	Reviewed against the page	Every image reviewed; alt text written for meaningful images, decorative images marked as artifacts.
14 Headings: levels reflect the document's outline	Enforced by script; reviewed	Engine never skips a level; heading text checked in review.
15 Tables: headers and scope	Reviewed against the page	Header cells and scope checked in the tag dump.
16 Lists tagged as lists	Reviewed against the page	List structure checked in the tag dump.
28 Form fields have labels; tab order follows structure	Enforced by script; reviewed	Every field has a tooltip (TU); page tab order set to structure order.
31 Text maps to correct Unicode (including OCR text)	Enforced by script; reviewed	Fonts carry ToUnicode maps; OCR text spot-checked against the image.
WCAG 1.4.3 Colour contrast (outside PDF/UA)	Measured by script	Measured by script for every text run; reported below, not changed (changing colours changes how the document looks).
Usability with a screen reader (NVDA, JAWS) in Adobe Acrobat Reader	Not done	Not part of this deliverable unless stated: no screen-reader session was recorded for this file.

Tools

veraPDF 1.30.4 (PDF/UA-1 validation); qpdf and pikepdf (PDF structure); PyMuPDF (layout and rendering); OCRmyPDF with Tesseract (text recognition, when needed); LibreOffice (this report). All run locally.

The full structure tree in reading order is supplied as a separate text file.
