Accessibility conformance report: Freedom of Information Request form (City of Galena, Illinois)

Prepared 2026-11-12. Source file: galena-foia-request.pdf (2 pages). Remediated file: galena-foia-request.pdf.

Summary

Before and after remediation

Check	Before	After
PDF/UA-1 machine validation (veraPDF, ISO 14289-1)	Fails: 9 rules, 53 failed checks	Passes
Tagged structure	Yes	Yes
Document language	EN-US	en-US
Document title shown in title bar	Freedom of Information Request	Freedom of Information Request form (City of Galena, Illinois)
Bookmarks	0	0
Images with alternative text		1 of 1 tagged figures
Form fields with labels		43 of 43
Text recognised from scanned images (OCR)		Not needed
Visual change (share of pixels that differ, worst page)		0.0030

Visual change is measured by rendering every page before and after and counting pixels that differ. A value near zero means the document looks the same to a sighted reader. Small non-zero values come from embedding the fonts the original only named.

What we promise, and what we do not

- The remediated file passes PDF/UA-1 machine validation in veraPDF, the reference open-source validator, unless this report says otherwise.
- The structure (headings, lists, tables, reading order) was reviewed against the page, and every image and form field was reviewed and described or labelled.
- This is not a certification and not a legal opinion. Machine validation cannot judge whether alternative text or reading order is right; that part rests on the review described below.
- Colour contrast is measured and reported, not changed.

Structure of the remediated document

Tagged elements by type

Element	Count
Figure	1
Form	43
H1	1
H2	1

Machine validation in detail

Failures in the original file

Rule (ISO 14289-1 clause)	What it checks	Failed checks
5-1	The PDF/UA version and conformance level of a file shall be specified using the PDF/UA Identification extension schema	1
7.1-10	The document catalog dictionary shall include a ViewerPreferences dictionary containing a DisplayDocTitle key, whose value shall be true	1
7.18.1-2	An annotation (except Widget annotations or hidden annotations, or those having rectangle outside the crop-box) shall have either Contents k	1
7.18.3-1	Every page on which there is an annotation shall contain in its page dictionary the key Tabs, and its value shall be S	2
7.18.4-1	A Widget annotation shall be nested within a Form tag per ISO 32000-1:2008, 14.8.4.5, Table 340	43
7.18.5-1	Links shall be tagged according to ISO 32000-1:2008, 14.8.4.4.2, Link Element	1
7.18.5-2	Links shall contain an alternate description via their Contents key as described in ISO 32000-1:2008, 14.9.3	1
7.21.4.1-1	The font programs for all fonts used for rendering within a conforming file shall be embedded within that file, as defined in ISO 32000-1:20	2
7.21.4.2-2	If the FontDescriptor dictionary of an embedded CID font contains a CIDSet stream, then it shall identify all CIDs which are present in the	1

No PDF/UA-1 failures remain in the remediated file.

Colour contrast (WCAG 2.1, success criterion 1.4.3)

No text run measured below the required contrast ratio.

Checks that need human judgement (Matterhorn Protocol)

Human checks

Checkpoint	Status	How
01 Real content tagged, decoration marked as artifact	Reviewed by the remediator	Tag tree compared with the rendered pages.
06/09 Logical reading order and appropriate tags	Reviewed by the remediator	Reading order and tag types checked in the tag dump against the page images.
13 Alternative text for figures is meaningful	Reviewed by the remediator	Every image looked at; alt text written for meaningful images, decorative images marked as artifacts.
14 Headings: levels reflect the document's outline	Enforced by script; reviewed	Engine never skips a level; heading text checked in review.
15 Tables: headers and scope	Reviewed by the remediator	Header cells and scope checked in the tag dump.
16 Lists tagged as lists	Reviewed by the remediator	List structure checked in the tag dump.
28 Form fields have labels; tab order follows structure	Enforced by script; reviewed	Every field has a tooltip (TU); page tab order set to structure order.
31 Text maps to correct Unicode (including OCR text)	Enforced by script; reviewed	Fonts carry ToUnicode maps; OCR text spot-checked against the image.
WCAG 1.4.3 Colour contrast (outside PDF/UA)	Measured by script	Measured by script for every text run; reported below, not changed (changing colours changes how the document looks).
Usability with a screen reader (NVDA, JAWS) in Adobe Acrobat Reader	Not done	Not part of this deliverable unless stated: no screen-reader session was recorded for this file.

Known limitations of this file

- The form keeps its fillable fields. Each field is read with its label; the Yes and No buttons are read with their question.

Tools

veraPDF 1.30.4 (PDF/UA-1 validation); qpdf and pikepdf (PDF structure); PyMuPDF (layout and rendering); OCRmyPDF with Tesseract (text recognition, when needed); LibreOffice (this report). All run locally.

The full structure tree in reading order is supplied as a separate text file.
