Accessibility conformance report: ADA Facilities Survey: Center for Community Health, 3rd and 4th Floors (Clark County)

Prepared 2026-11-13. Source file: clark-ada-survey-health-center.pdf (1 pages). Remediated file: clark-ada-survey-health-center.pdf.

Summary

Before and after remediation

Check	Before	After
PDF/UA-1 machine validation (veraPDF, ISO 14289-1)	Fails: 9 rules, 173 failed checks	Passes
Tagged structure	No	Yes
Document language	Not set	en-US
Document title shown in title bar	Microsoft Word - Health Center - 3rd Floor.doc	ADA Facilities Survey: Center for Community Health, 3rd and 4th Floors (Clark County)
Bookmarks	0	0
Images with alternative text		5 of 5 tagged figures
Form fields with labels		No form fields
Text recognised from scanned images (OCR)		Not needed
Visual change (share of pixels that differ, worst page)		0.0194

Visual change is measured by rendering every page before and after and counting pixels that differ. A value near zero means the document looks the same to a sighted reader. Small non-zero values come from embedding the fonts the original only named.

What we promise, and what we do not

- The remediated file passes PDF/UA-1 machine validation in veraPDF, the reference open-source validator, unless this report says otherwise.
- The structure (headings, lists, tables, reading order) was reviewed against the page, and every image and form field was reviewed and described or labelled.
- This is not a certification and not a legal opinion. Machine validation cannot judge whether alternative text or reading order is right; that part rests on the review described below.
- Colour contrast is measured and reported, not changed.

Structure of the remediated document

Tagged elements by type

Element	Count
Figure	5
H1	1
H2	2
L	3
LBody	6

LI	6
P	11

Headings, in reading order

- Level 1: Clark County Facilities Transition Plan Clark County Center for Community Health – 3rd and 4th Floors
- Level 2: Item: Drinking Fountain – 3rd Floor Lobby
- Level 2: Item : Pipe Covering

Images and their alternative text

Figures

Page	Alternative text
1	Clark County, Washington seal: a figure paddling a canoe, with the words Clark County, Washington around the edge
1	Photo of a 3rd floor lobby: two stainless steel drinking fountains mounted at different heights on a curved wall between teal panels, next to a restroom sign with the wheelchair symbol
1	ANSI Figure 307.2, Limits of Protruding Objects: side view of a person walking with a long cane beside a wall. An object mounted between 27 inches (685 mm) and 80 inches (2030 mm) above the floor may protrude no more than 4 inches (100 mm) from the wall.
1	Photo of a break room sink with an open counter below: the drain and water supply pipes under the sink are bare, with no insulation or cover, and a small appliance sits on the floor beneath them
1	Photo of a second break room sink between cabinets: the bare drainpipe under the sink is exposed above a blue plastic storage bin

Machine validation in detail

Failures in the original file

Rule (ISO 14289-1 clause)	What it checks	Failed checks
5-1	The PDF/UA version and conformance level of a file shall be specified using the PDF/UA Identification extension schema	1
6.2-1	The document catalog dictionary shall include a MarkInfo dictionary containing an entry, Marked, whose value shall be true	1
7.1-10	The document catalog dictionary shall include a ViewerPreferences dictionary containing a DisplayDocTitle key, whose value shall be true	1
7.1-11	The logical structure of the conforming file shall be described by a structure hierarchy rooted in the StructTreeRoot entry of the document	1
7.1-3	Content shall be marked as Artifact or tagged as real content	92
7.2-33	Natural language for document metadata shall be determined	1
7.2-34	Natural language for text in page content shall be determined	72
7.21.3.2-1	ISO 32000-1:2008, 9.7.4, Table 117 requires that all embedded Type 2 CIDFonts in the CIDFont dictionary shall contain a CIDToGIDMap entry th	1
7.21.4.1-1	The font programs for all fonts used for rendering within a conforming file shall be embedded within that file, as defined in ISO 32000-1:20	3

No PDF/UA-1 failures remain in the remediated file.

Colour contrast (WCAG 2.1, success criterion 1.4.3)

No text run measured below the required contrast ratio.

Checks that machine validation cannot settle (Matterhorn Protocol)

Review checks

Checkpoint	Status	How
01 Real content tagged, decoration marked as artifact	Not yet reviewed	Tag tree compared with the rendered pages.
06/09 Logical reading order and appropriate tags	Not yet reviewed	Reading order and tag types checked in the tag dump against the page images.
13 Alternative text for figures is meaningful	Not yet reviewed	Every image reviewed; alt text written for meaningful images, decorative images marked as artifacts.
14 Headings: levels reflect the document's outline	Enforced by script	Engine never skips a level; heading text checked in review.
15 Tables: headers and scope	Not yet reviewed	Header cells and scope checked in the tag dump.
16 Lists tagged as lists	Not yet reviewed	List structure checked in the tag dump.
28 Form fields have labels; tab order follows structure	Enforced by script	Every field has a tooltip (TU); page tab order set to structure order.
31 Text maps to correct Unicode (including OCR text)	Enforced by script	Fonts carry ToUnicode maps; OCR text spot-checked against the image.
WCAG 1.4.3 Colour contrast (outside PDF/UA)	Measured by script	Measured by script for every text run; reported below, not changed (changing colours changes how the document looks).
Usability with a screen reader (NVDA, JAWS) in Adobe Acrobat Reader	Not done	Not part of this deliverable unless stated: no screen-reader session was recorded for this file.

Known limitations of this file

- The original page lays out each finding in a three-column grid (photo, description, diagram). The grid is only for layout, so it is tagged as headings, paragraphs, lists and figures rather than as a data table. Each finding's photo and its caption are read just before the finding's heading, as they sit at the left of its row.

Tools

veraPDF 1.30.4 (PDF/UA-1 validation); qpdf and pikepdf (PDF structure); PyMuPDF (layout and rendering); OCRmyPDF with Tesseract (text recognition, when needed); LibreOffice (this report). All run locally.

The full structure tree in reading order is supplied as a separate text file.
